

Remarks

This communication is considered fully responsive to the Office Action mailed May 5, 2005, and made Final (hereinafter referred to as the "Final Office Action"). Claims 1-24 were examined and stand rejected.

The claims are amended as set forth above. New claims 25-28 are added. Reexamination and reconsideration of the claims are respectfully requested.

No New Matter

Claims 1, 11, and 20 are amended to more positively recite using the delivery data to resend the document from the remote document history repository if it is not received. This feature is disclosed in the specification as originally filed, e.g., on page 13. Therefore, no new matter is added by the amendments.

New claims 25-28 positively recite a receipt service. This feature is disclosed in the specification as originally filed, e.g., on pages 12-13. Therefore, no new matter is added by the new claims.

Incorporation by Reference

With regard to the claim rejections repeated in the Final Office Action, Applicant hereby incorporates by reference all of the arguments previously presented in the Response to the first Office Action, filed on April 5, 2005. Applicant maintains that the claim recitations are not taught or suggested by the cited references for at least these reasons.

Applicant believes that the "Response to Arguments" and the new claim rejections in view of reference GB 2,331,383 to Cullen, both in the Final Office Action, are moot in view of the amendments. However, Applicant reserves the right to present further argument if any of these rejections are maintained in view of the amendments.

Conclusion

The Applicant respectfully requests that a timely Notice of Allowance be issued in this matter.

Respectfully Submitted,
